## Summer Session 1

### **MAY 22-JUNE 26**

**Interested in Sports Medicine? You need to take this course! You will have the opportunity to learn more about the sports medicine team and care provided to physically active individuals with great emphasis on the acute management of exertionally related injury and illness.**

**Graduate Students** register for KINS 5200: Foundations in Athletic Training

**Undergraduate Students** register for KINS 3100 : Prevention and Care

**Prerequisites:** Instructor Consent

### **MAY 26 - JUNE 27**

**An examination and application of the principles of exercise prescription in primary disease prevention. Students will advance their knowledge in the exercise pre-participation health screening and pre-exercise evaluation processes. Students will develop exercise prescriptions for a variety of populations and scenarios. This course is a prerequisite for KINS 5508 and KINS 5595.**

**Graduate Students** register for KINS 5507: Fundamentals of Exercise Prescription

**Undergraduate Students** register for KINS 2227: Exercise Prescription

**Prerequisites:** Instructor Consent

## Summer Session 2

### **JULY 6 – AUGUST 8**

**This course introduces common orthopedic injuries in the upper extremity.**

**Dive into the mechanisms of certain injuries, how to recognize injuries, and evaluation techniques.**

**Graduate Students** register for KINS 5100: Musculoskeletal Evaluation 1

**Undergraduate Students** register for KINS 3130: Evaluation of Injuries

**Prerequisites:** PNB 2264 and 2265

### **JULY 13 – AUGUST 14**

**This course is designed to provide students with an introduction to biomechanical issues of human movement related to exercise/sport and injury. Learn the fundamental of human movement as it relates to exercise, sport and injury.**

**Register for KINS 3522:** Biomechanics of Injury and Sport
